**THULE**<sup>®</sup>  
SWEDEN

Malmö, Sep 9th, 2015

### **Thule presents Thule Bassinet, the accessory that transforms your Thule Sport Stroller to a pram, at the Kind & Jugend show in Koeln, Germany, Sep 10–13th, 2015.**

Having multiple strollers is not always practical for parents, especially those living an active life. With the addition of the Thule Bassinet, parents can now customize their Thule Sport Stroller to get outside with their infants and enjoy strolls through the city or along their favourite path. Thule Bassinet is available in stores now.

Thule Bassinet transforms your Thule Glide, Thule Urban Glide and Thule Urban Glide 2 to a pram. Thule recognizes the essential need for strollers to be lightweight and easy to use. The innovative click-in installation and removal system allows parents to quickly and easily transform their stroller. When not in use, the Thule Bassinet folds flat for compact storage.

Thule designs products to meet or exceed international safety standards and the company's own rigorous internal testing ensures all Thule products can handle the toughest conditions.

A mesh cover protects infants from sun, wind and even insects, while a foot cover provides added warmth.
