### Thule presents the stylish and spacious Thule Motion XT, optimized for ease of use

When you want to travel fully equipped and leave nothing behind, Thule Motion XT is the perfect companion. This family-sized roof box is made for carrying lots of luggage, outdoor gear, and bulky loads, and comes in a broad range of sizes. It is safe and convenient to use, making sure you can bring everything you need with ease. But there's more to Thule Motion XT than space efficiency, safety, and user-friendliness.

The box is securely and rapidly mounted to the roof rack with the PowerClick quick-mount system, updated to also mount to wider roof bars. Its integrated torque indicator “clicks” when it’s properly tightened, and the one-handed operation makes it easy to securely attach the box to the roof rack. DualSide opening provides easy access to all areas of the box, from either side of the vehicle. Thanks to the grip-friendly outer lift handle and optimized lid-lifters, the lid opens and closes smoothly, while the SlideLock system automatically locks the lid in place as soon as the box has been closed.

With Thule Motion XT, Thule sets a new standard for modern roof box design. Thule Motion XT is not only designed for space efficiency and ease of use, but also to harmonize with today's car designs. Its stylish and aerodynamic shape has been optimized using the impact on fuel

economy and providing a quiet ride. Since it is designed to have a forward position on the vehicle roof, Thule Motion XT enables full access to the vehicle's trunk or hatch with minimal risk of contact with the cargo box. The design team has worked with **functional volume, integrated, accentuated edges, tension, contrast** and **clean** as key words.

## > Press release

Thule is celebrating the launch of the Thule Motion XT with a Thule Motion XT XL Limited Edition with a matt outside and a green inside of the lid.

Like all Thule cargo boxes, Thule Motion XT has been tested extensively both in real life and in the Thule Test Center, a state-of-the-art facility for testing cargo boxes to the extreme. All so that you can be confident Thule Motion XT will carry your load safely and securely wherever your travels lead.
